BONINE TRIAL

Expert Carr, a Physician, Called for the Defendant—The Trial is Drawing to a Close.

Washington, Dec. 7.—During the examination of Dr. W. P. Carr, who was called as an expert by the defense in the case of Mrs. Lola Ida Bonine, on trial for the murder of James Seymour Ayres, Jr., counsel asked him to give an opinion as to the relative positions of Mrs. Bonine and Ayres when the shots were fired. District Attorney Gould claimed that the only person able to give such information was Mrs. Bonine herself. The court held that the question could be asked as to the effect of firing produced by a pistol at a certain distance from the object, and also within what distance the person using the weapon might have stood in order to inflict wounds such as were found upon Ayres' body. The witness answered that from the nature of the wounds on Ayres' body, the pistol could not have been held at a distance greater than 24 to 18 inches from the body.

ARTESIAN WELL

STRUCK IN HEART OF FAMOUS DEATH DESERT.

Thousand Gallons Per Hour Sweeps Through a Two Inch Hole—It's Better than Oil.

El Paso, Texas, Dec. 7.—A dispatch from Las Cruces today announces that oil borers at Engel, N. M., have struck an artesian well at a depth of 200 feet which swept 1000 gallons of water per hour through a two inch hole. Engel is situated in the heart of the famous journey of Death Desert, which is one of the most arid regions known, and the strike of water will prove far more valuable than an oil gusher. Irrigation here would turn the region into one of the most fruitful in the world.

LAZARRE

New Book by Mary Hartwell Catherwood Who Formerly Lived at Hebron and Granville.

It may not be generally known that Mary Hartwell Catherwood who wrote the book "Lazarre," is a native of Licking county. She, as an orphan lived with her grandfather, Mr. Thompson, at Hebron, Ohio, until sometime during the war of the rebellion. She attended high school in Hebron and later the seminary at Granville. She had the reputation of being a very bright girl, and early gave promise of making her mark in a literary way. It has only been a few weeks since the book was published and yet it has already entered the list of the six best selling books in the United States. It is on sale at Horney & Edmiston's store.

Johnson. The report is that Johnson was an applicant for a saloon license and the trouble arose over the alleged efforts of Easterlin to prevent his obtaining it. It is said the two men met in the street and that Johnson, who had a double-barreled shotgun, fired a load into Easterlin's head.

JANE TOPPAN HELD.

Grand Jury Returns Indictment Against the Nurse.

MURDER OF THREE PERSONS CHARGED

Dramatic Scene in Court When the Woman Entered a Plea of Not Guilty—Motion to Dismiss the Murder Indictment Against Roland Molineux Denied.

Barnstable, Mass., Dec. 7.—Miss Jane Toppan of Lowell stood up in the superior court room and heard the grand jury's indictment charging her with the murder of three persons whom she had been engaged to nurse back to health, but who had died under her charge, and, according to the indictment, by her hand. The indictments, of which there are three, one charging her with the death of Mrs. Mary D. Gibbs, a second with the death of A. P. Davis, both of Cataumet, and the third with that of Mrs. Genevieve Gordon of Chicago, all alleged that the cause of death was the administration of poisonous drugs, 10 grains of morphine or atropine, or morphine and atropine together, or by some poison unknown to the jury. For 10 minutes the woman stood tightly clutching the rail while the clerk read the indictment charging her with the murder of Mrs. Gibbs. At length Miss Toppan's counsel spared her further agony by waiving the reading, and all that remained was for her to plead. Three times she was asked if she was guilty of the murder and three times she replied in a low voice, "not guilty."

Woman Charged With Murder.

Fort Wayne, Ind., Dec. 7.—Ida Cheney, a young woman of Payne, is in jail at that place on a charge of murdering the 6-year-old daughter of George Franklin, a farmer. The Cheney woman has been Franklin's housekeeper since the death of his wife, three years ago, and it is alleged she has always treated the little girl cruelly. A week ago Ida Cheney went to a neighbor's and reported that the child had been seized with convulsions while alone in the house and had died. The matter came to the knowledge of the prosecuting attorney, who had the remains exhumed by the coroner. The body was found to be badly bruised and there was a mark on the skull of a blow sufficient to have caused a fatal concussion. The Cheney woman was immediately arrested for murder and is now in jail.

Molineux's Motion Denied.

New York, Dec. 7.—Judge Newburger in the court of general sessions handed down a decision denying a motion to dismiss the indictment for murder against Roland B. Molineux. The motion was to quash the indictment, or as an alternative for leave to inspect the minutes of the grand jury. Both applications were denied. The attorneys for Molineux alleged that evidence introduced before the grand jury concerning what are known as the Barnett letters was improper under the decision of the court of appeals setting aside the conviction of Molineux. The judge, in denying the motion, said the court of appeals had power to direct a final judgment, and that it had exercised this power by directing that a new trial should take place.

Confessed Five Murders.

Lake City, Fla., Dec. 7.—Thomas J. Hampton, colored, who committed a double murder at Fort White, in this county, nine years ago, was hanged here for the crime. The doomed man showed the most remarkable nerve and smoked a cigar to the very moment the black cap was adjusted. In his statement just before the execution he confessed to five murders, one of a conductor on a train in Lexington county, S. C., in 1887, a homicide that has for the last 14 years been a mystery. Other murders were committed in Georgia. He was working in a turpentine camp when the Fort White crime was committed. He escaped and was only recently captured.

TO BE DECIDED BY A REPUBLICAN CAUCUS.

First Step Taken Toward a Reduction of Southern Representation in Congress.

Washington, Dec. 7.—The movement to reduce the representation of the South in the House of Representatives has taken shape in the circulation by Representative Crampacker of Indiana, of a petition for a Republican caucus to consider what attitude the party should take on the subject. Several bills have been introduced and others are being prepared to carry the idea into effect, but he believed a caucus should determine upon the character of the measure to be supported.

In the last Congress a similar attempt was made, but the fate of the "force bill" was still fresh in the minds of the Republican leaders, and nothing was done. This year, however, the Republican majority is three times greater than it was in the last Congress, and so the party is in much better shape to put through a bill for this purpose.

It is claimed that at least two-thirds of the House Republicans are in favor of action and claim to have assurance that the Republican senators will welcome action by the lower body.

Senator McComas of Maryland, whose seat has been endangered by the recent Maryland election law, which gave the Democrats the Legislature last November, has been very active in stirring up interest on the subject among the senators.

NO GOLDEN RULE IN ANY KILLING.

MAYOR SAM JONES QUILTS TOLEDO HUMANE SOCIETY.

He Does Not Believe That the Father Who Abandons His Children Should be Put to Death.

Toledo, O., Dec. 7.—Mayor Samuel M. Jones has resigned from the board of directors of the Toledo Humane Society because its president, Hon. Jas. M. Brown, who is also president of the American Humane society, declared that a man who abandons his children should be put to death.

The declaration appears in the annual report of the Toledo Humane society and is as follows: "The man who will bring children into the world, and in their helplessness desert them, is unfit to bear the image of either brute or man, is an enemy to his race, a traitor to his country and should be put to death. Yet the Legislature of Ohio will send such a man to the stone yard for three months, and the man who steals a cow, from one to seven years in the penitentiary."

Mayor Jones, in a letter to Mr. Brown expressed his respect for the society and its officers in an attempt to benefit mankind, but said if it was the purpose of the society to kill men for abandonment of children he could not serve as director, and therefore tendered his resignation, as he did not believe in killing anybody for crime.

WANTS OF WORKMEN

Portrayed in a Formidable Array of Resolutions.

NEARLY ONE HUNDRED INTRODUCED.

Variety of Topics Aired at the Convention of the American Federation of Labor—Restriction of Immigration a Mooted Theme—Proceedings of the Day.

Scranton, Pa., Dec. 7.—This morning's session of the convention of American Federation of Labor was called to order by President Gompers who introduced Miss Harriet A. Keyser, secretary of the church association for the advancement of the interests of labor. She says her organization has adopted the union label, and would not deal in any goods that were not so labeled. The organization she represented, she said, was the first to appoint a committee to arbitrate strikes and that Bishop Potter was chairman of the committee.

Scranton, Pa., Dec. 7.—Considerable routine business was disposed of at the session of American Federation of Labor, in convention here. The feature of the session was the very able address of Edward F. McSweney, deputy commissioner of immigration at the port of New York, on the subject of immigration. He spoke for more than an hour and was generously applauded for the great amount of information that he gave the delegates. During the session 88 resolutions were presented and referred to the committees. They cover nearly every variety of subjects that affect workmen. One of them contained a denunciation of Wu Ting Fang, the Chinese minister, for an alleged derogatory remark against the American people, and another conveyed the "sincere and hearty thanks of the Federation of Labor to President Roosevelt for the position he took in his message to congress on the question of Chinese expulsion."

Among the more important resolutions presented were these: Asking workmen to unite for independent political action in a party having for its avowed object the overthrow of the capitalistic system of production and distribution and the establishment of the co-operative commonwealth; asking congress to amend the Geary act so as to exclude Chinese, Japanese, Malays and all people of Asiatic extraction and to prevent the use of the American Pacific island possessions as a bridge over which excluded races may pass into the United States; denouncing anti-scalping legislation because the ticket brokerage business is legitimate, a convenience to the public and a means of cheapening railway travel; asking congress for the right of suffrage for the citizens of the District of Columbia; providing for a general defense fund by levying a tax of 2 cents per month on every man in the American Federation of Labor; amending the alien contract labor law so as to include musicians. A batch of resolutions dealing with trade jurisdiction and trade autonomy were also introduced. A bitter contest may be waged by the delegates when the jurisdiction and autonomy questions come before the convention.

Delegate Dietrich of Washington, D. C., presented a resolution protesting against subsidy legislation by congress, and another resolution called for the appointment of a committee of five to draft a memorial to congress to prohibit the granting of injunctions by courts against organized labor in various parts of the country, giving seamen the full right to quit any merchant vessel on which the seamen have been obnoxious to him, and for universal labels.

FEELING

AGAINST THE PRINCE CONSORT HAS INCREASED TEN FOLD.

Reported Death of Vantets with whom Prince Fought a Duel—A Divorce Seems Certain.

Amsterdam, Dec. 7.—The reported death of Major G. J. Vantets, a young nobleman, who recently fought a duel with Prince Henry, husband of Queen Wilhelmina has caused general sorrow to the people and has increased ten fold the feeling of resentment against the Prince Consort. Vantets died from the wound, according to the commonly accepted story, received from the Prince because Vantets objected to the Prince's open and brutal treatment of Queen Wilhelmina. The public therefore, who love their Queen dearly look upon Vantets as a martyr hero. The attempt of the Queen's mother and Kaiser Wilhelm to reconcile Wilhelmina and the Prince consort, it is generally believed, will not prove successful. In the end a divorce seems certain.

Fine Music Promised.

Tomorrow the "Feast of the Immaculate Conception," will be observed at the St. Francis de Sales church. On this occasion a special program of music will be rendered, both morning and evening. O'Keefe was known in the oriental trade as "King" O'Keefe of Yap, which island he virtually owned.

Vincennes, Ind., Dec. 7.—Thomas Dent, Tom Hefty and Samuel Price, coal miners, were arrested charged with inciting a riot and attack on non-union miners at the Prospect Hill coal mine two weeks ago, in which two men were almost beaten to death. It is alleged that these men had 200 miners from Montgomery, Washington, Petersburg and Princeton to come here and do the work. There are now eight men in jail charged with riot, and 32 bench warrants for as many more miners who participated in the raid.

Work of Train Wreckers.

The engine turned completely over and the engineer, Maurice Cavanaugh, was badly scalded and internally injured. Fireman Frank Crase was badly injured. None of the passengers were hurt. The wreck was undoubtedly the work of train wreckers. A seven-eighths inch square nut had been placed on the outside rail of a curve.

GUSHER

IS DRILLED IN NEAR HOMER LICKING COUNTY

BIGGEST GAS WELL IN THE NEW HOMER FIELD.

FLOW THREE AND HALF MILLION

Four Inch Main to be Laid to Mt. Vernon—Gas at 2160 Feet in Depth. A Fine Well.

Homer, O., Dec. 7.—The Mt. Vernon Natural Gas Company drilled in a gusher on the farm of Dr. A. T. Fulton near Homer, Licking county, about 3 o'clock Thursday afternoon. It is by far the biggest well yet drilled in the Homer field and even exceeds the famous Fry well. The daily output as shown by the gauge is three and a half million cubic feet daily.

The gas was struck at a depth of 2160 feet, with an excellent rock pressure. Manager Kribbs of the local company, said Friday that work will be commenced next week laying a four inch line from the well to Mt. Vernon primarily to supply gas for manufacturing purposes. Later mains may be extended to Gambier and even to Mansfield.

The well compares favorably with the big gushers in the Sugar Grove field. There the average output of the big wells is about four million feet daily.

New York, Dec. 7.—The Evening Journal says that the Vanderbilts have invested millions in the trolley system which parallels the Lake Shore from Buffalo to Detroit and has been "pierced" to as the Henry A. Everett system of trolley lines. Their idea is to prevent the threatened competition with their steam railroad interests. In Cleveland the report is discredited by Everett's friends.

WON'T ASSIMILATE BENEVOLENTLY.

When the war in the Philippine islands is really and truly over, and the army has nothing to do but to act as police to preserve the peace this country will be very apt to find that the industrial conquest of the Filipino people is quite as difficult as was the suppression of armed resistance to being governed without their consent. A correspondent of the Manila Freedom, writing from San Fernando, a flourishing city of 13,000 inhabitants on the west coast of Luzon, 171 miles north of Manila, and in the heart of a very productive region tells about the prejudice that exists among the people against everything American. The prejudice shown in San Fernando illustrates the difficulty that prevents the benevolent assimilation of a people who are forced by bayonets and bullets to be governed without their consent. They can see nothing benevolent in the way the United States government has treated them.

The correspondent referred to declares that despite the peaceful condition now ruling there, the Filipinos throw every possible obstacle in the way of American investment or American settlement. They refuse flatly to sell lands or even lease them on highly favorable terms, and in their blind prejudice against Yankee "invasion" decline to do business with Americans at all, if they can help it.

"I know," the correspondent declares, "of five American citizens who have been trying for more than a month, two of them for two months, for a location upon which to erect business buildings."

San Fernando has, with possibly one exception, the finest harbor on the west coast, is the shipping point for the famous Niguilan tobacco distiller, has a suburb natural drainage, is the gateway to the gold deposits of the Bleyne and Lepanto provinces, is the center of a region that raises crops of rice, corn and sugar cane, and has a good wagon road to Manila. The correspondent says it ought to be one of the best business points for Americans on the islands.

It begins to look as if the civil commission had run up against a tougher proposition than the army and navy combined. There was a job of physical suppression merely. But prejudice and hatred founded upon a sense of personal and political wrongs committed upon a people cannot be so easily overcome.

To the Man Depressed in Spirit and Ready to Give Up, Dr. Greene's Nervura Works Wonders.

Exhausted, nervous and weak, head almost bursting with pain, energy gone, ambition dead, depressed in spirit, ready to give up.

This is what comes to the man who keeps driving at his work until the breaking point is reached.

Stop now! Build up your strength with Dr. Greene's Nervura blood and nerve remedy which does wonders for every weakened system.

Squire L. A. Beck, of Pekin, Ill., says:

"I heard so much about Dr. Greene's Nervura blood and nerve remedy that I concluded to try a bottle. I was surprised from the start to find that I felt better and more vigorous than I had for years. Nothing in the medicine line I ever tried before gave me such relief. It was a marked improvement in my condition, and my family also noticed the change. I continued to take the medicine as a blood and nerve tonic. I recommend it to anyone."

Mr. Walter S. Phillips of Phillips & Casey, Rouse's Point, N. Y., says:

"I was prostrated from overwork and nervous prostration, and had run down from 150 to 115 lbs., and after a course of Dr. Greene's Nervura blood and nerve remedy I regained my health and recovered my weight to 175 pounds. I can conscientiously recommend Dr. Greene's medicine as the best thing on earth, and have recommended it to a great many. You are at liberty to publish this letter, for others' good."

PHILIPPINE LEGISLATION.

Ways and Means Committee Meets and Considers It.

Washington, Dec. 7.—The new ways and means committee met and considered a bill for the Philippines. The discussion thus far has turned chiefly on whether the Philippines bill shall be temporary or permanent. Chairman Payne being rather inclined to a permanent measure. Another question brought up was as to the uniformity of the tariff rates to be established. It being held in some quarters that the United States would have preferential rates over foreign countries to the extent of 15 per cent or thereabouts. Indications are that the measure will be ready early next week, and perhaps by Tuesday, although the Republican members say there will be no disposition to rush through a measure without mature consideration.

Canal Treaty Criticized.

Washington, Dec. 7.—Senate committee on foreign relations voted to report favorably the new Hay-Pauncefote treaty providing for the construction of an isthmian canal. No votes were cast against it, but it was criticized very sharply by Senators Money and Bacon, who found in it many of the objections which they urged against the old treaty. They took especial exception to the provision continuing in force the neutrality provision of the Clayton-Bulwer treaty, and also made objection to the clause specifically authorizing the United States to police the canal, as placing a limitation upon the power of this country to absolutely control it.

SUPT. TOWNSEND

Will Speak at Sunday Afternoon's Y. M. C. A. Meeting at Taylor Hall Other Sunday Meetings.

Prof. F. M. Townsend, superintendent of the public schools, will address the Y. M. C. A. men's meeting Sunday afternoon at 3:30 o'clock on the subject of "The Young Man in Home, School, Society, Business and Church." The young men of Newark should turn out in large numbers to hear what will no doubt be an able address from this scholarly gentleman. The Association mixed chorus will lead the singing and render "Nearer, My God, to Thee" by Lynes.

The Bible class will be in charge of Rev. L. S. Boyce Sunday morning at 9 o'clock. A cordial invitation is extended to all interested in the study of the Bible.

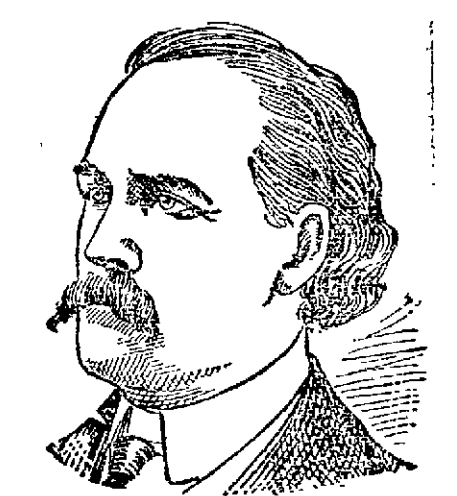

The boys' meeting will be in charge of Miss May Lumley. The meeting will be in the junior room at 2 o'clock. All boys under 10 years of age will be welcome at this meeting.

WHAT CAUSES DEAFNESS

The Principal Cause is Curable but Generally Overlooked.

Many things may cause deafness, and very often it is difficult to trace a cause. Some people inherit deafness. Acute diseases like scarlet fever sometimes cause deafness. But by far the most common cause of loss of hearing is catarrh of the head and throat.

A prominent specialist on ear trouble gives as his opinion that nine out of ten cases of deafness is traced to throat trouble; this is probably

overstated, but it is certainly true that more than half of all the cases of poor hearing were caused by catarrh.

The catarrh secretion in the nose and throat finds its way into the Eustachian tube and by clogging it up very soon affects the hearing, and the hardening of the secretion makes the loss of hearing permanent unless the catarrh which caused the trouble is cured.

Those who are hard of hearing may think this a little far fetched, but any one at all observant must have noticed how a hard cold in the head will affect the hearing and that catarrh if long neglected will certainly impair the sense of hearing and ultimately cause deafness.

If the nose and throat are kept clear and free from the unhealthy secretions of catarrh, the hearing will at once greatly improve and anyone suffering from deafness and catarrh can satisfy themselves on this point by using a fifty cent box of Stuart's Catarrh Tablets, a new catarrh cure, which in the past year has won the approval of thousands of catarrh sufferers, as well as physicians, because it is in convenient form to use, contains no cocaine or opiate and is safe and pleasant for children and elders.

Stuart's Catarrh Tablets is a wholesome combination of Blood root, Guaiac, Eucalyptol and similar antiseptics and they cure catarrh and catarrhal deafness by action upon the blood and mucous membrane of the nose and throat.

As one physician aptly expresses it: "You do not have to draw upon the imagination to discover whether you are getting benefit from Stuart's Catarrh Tablets: improvement and relief are apparent from the first tablet taken."

All druggists sell and recommend them. They cost but fifty cents for full sized package and any catarrh sufferer who has wasted time and money on sprays, salves and powders, will appreciate to the full the merit of Stuart's Catarrh Tablets.

HOWARD JONES

May Now Write "Attorney at Law" After His Name—Passed Very Creditable Examination.

At a meeting of the State Board of Law Examiners held in Columbus Tuesday and Wednesday there were 148 applicants for admission to the bar. The list of questions submitted is said to have been particularly hard. Among those who passed the examination and were authorized to practice law is Mr. J. Howard Jones, one of the efficient deputies in the office of the Probate Judge. Mr. Jones, who is a son of Mr. A. H. Jones, is a young man only twenty-four years of age. At the age of fifteen years he graduated from the Granville High School, when he entered Denison University and graduated from that institution four years later. After graduating and when only 19 years of age he entered the Ohio State University at Columbus and studied law for one year, when he returned to Newark, and entered the office of the Probate Judge under Judge Waldo Taylor, and has been in the office for three years. During his spare moments he put in his time in reading law, and so proficient had he become that he found no difficulty in answering the most difficult questions propounded by the examiners. He stood well up in the class. He has the congratulations of his many friends both in Newark and Granville.

On Monday afternoon at the home of Miss King the Monday Talks distinguished itself far beyond the greatest expectation of the club. The following program was distributed at the door and at once aroused the keen interest of all present:

MONDAY TALKS

December 2, 1901

SCENE—Miss Lowe's morning room.

"Picking Up the Pieces" was really so artistic that it ceased to be in the least amateurish, and would have given a credit to professionals. Miss

King and Dr. Galbreath did themselves proud, and made their friends proud. The second part of the program, "The Man Who Wasn't," was irresistibly funny. Miss Fleek and Mr. Kennedy fitted their parts completely, sharing honors with Miss King and Dr. Galbreath. In the midst of the enjoyment of the affair a feeling of regret crept in—a regret heart-felt—that it was the last time, perhaps for years, that Dr. Galbreath would be a part of the social life of Newark to which both he and Mrs. Galbreath have been such an addition the past three years.

Miss King repeated the entertainment in the evening to a number of invited guests.

Progressive club met on Wednesday afternoon with Mrs. Ernest Johnson on North Third street. The program was as follows:

Stiff Joints

Omega Oil What a stiff joint needs more than anything else is Omega Oil. The next need is plenty of massage, or rubbing. The rubbing makes the blood flow faster, and the Oil loosens up and softens the hard, stiff places. The first thing to do with a stiff joint in machinery is to oil it, and then work it back and forth until all the stiffness is gone. Now, as a matter of fact, your body is a machine, not of iron, but flesh, muscles and joints, and you want to keep it well oiled with Omega Oil if you expect to have it in good running order. This is common sense, and every one knows it to be the truth.

Omega Oil is good for everything a liniment ought to be good for.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak lungs would collapse. ANNUAL

Praise Service Given at the First Presbyterian Church—The Program of the Evening.

One of the pleasant entertainments of the past week was the annual praise service given by the Ladies' Missionary Society of the First Presbyterian church on Tuesday evening.

Invitations had been issued to all members of the congregation, and at an early hour the audience room was quite comfortably filled and the audience was entertained with the following program: Organ Voluntary, Miss Ada Ickes. Doxology, Audience. Scripture lesson and prayer, Rev L. S. Boyce. Anthem, Choir. Recitation, "Amen" Grace Wilson. Reading, "The Lost Coin," Miss Minnie Hughes. Missionary Anthem, Choir. Paper, "In As Much," Mrs. John B. Moore. Anthem, "Make a Joyful Noise Unto the Lord," Choir. Closing prayer, Mrs. Edward Bates. A free will offering was taken, amounting to about \$75.

At the conclusion of the program all present were invited to repair to the church parlors where light refreshments were served, and a social hour spent, during which time the audience was favored with a beautiful solo by Mrs B M East.

The church parlors were very beautifully decorated with grain and vegetables to represent the plentiful harvest.

HAS NEED OF TROOPS

General Chaffee Opposes Reduction at This Time.

LARGE AREA YET TO BE PACIFIED.

Establishment of Civil Government Should Not Be Followed by Withdrawal of the Military—Recommendations in His Annual Report on Conditions in the Philippines.

Washington, Dec. 7.—The first annual report of Major General Chaffee, military governor of the Philippines, has been made public by the war department. General Chaffee sums up the situation in the Philippines from a military point of view by stating that the provinces of Batangas and Laguna, in Luzon, and the islands of Samar, Mindoro, Cebu and Bohol, constitute the area now disturbed by any embodied form of insurgents. He says that to the physical character of the country, to the nature of the warfare of the natives, who are amigro and foe in the self-same hour, to the humanity of the troops, which is taken advantage of by the rebels and the inhabitants who sympathize with them, and to the fear of assassination on the part of the friendly disposed if they give information to the American forces, is due the prolongation of the warfare.

Commenting upon the plan of gradually replacing military with civil administration, General Chaffee says: "The withdrawal of interference with civil affairs does not contemplate withdrawal of the troops from their stations to any considerable extent; on the contrary, this should not be done hastily, and when undertaken should be gradual and more in the nature of concentration than reduction of force or abandonment of any considerable area of territory." He therefore recommends that there be no further material reduction of troops before Jan. 1, 1903.

The civil governments being organized—provincial and municipal—General Chaffee says, are both new and untried, and there is but one certain and reliable method of ascertaining the progress of the Filipinos in self-government, namely, observation by the army. On the subject of the military government of the city of Manila, General Chaffee says: "In the government of Manila for three years if the military have done nothing more, it is everywhere apparent that an excellent foundation has been laid and a turbulent and hostile community brought to observe the laws and individually be orderly, this has been done without undue harshness or severity of treatment of the inhabitants."

German Tariff Debate.

Berlin, Dec. 7.—The United States was again frequently referred to during the tariff debate in the reichstag. Herr Speck, Centrist, said: "We are asked, what shall Germany do without American cotton? I ask, what will the United States do with its cotton? Without an American market we have no more interest in American friendship than America has in ours. I am far removed from declaring a tariff war with the United States, but we must preserve our self-respect. We do not need foreign countries. Who will stand the damage if no commercial treaties are made with the United States? Clearly the United States."

More Victims.

Malvern, Ark., Dec. 7.—Five more deaths have occurred in consequence of the head-end collision between two passenger trains on the St. Louis, Iron Mountain and Southern railroad, near here. Maggie Stevenson, colored, of Landersville, Ala., died from injuries received in the wreck. Two colored children, names not known, also died from their injuries. Two white men, names unknown who had been riding on the front end of the baggage car on the fast mail southbound train, were found dead in the wreckage. It is supposed they were sawmill hands. None of the white passengers injured in the collision will die.

Family Caught in a Fire.

Pittsburg, Dec. 7.—Two persons were burned to death and seven injured in a fire at Carnegie. The dead are: Mrs. Sarah Klee, 42, and Mary Klee, her 9-year-old daughter. The injured are: Samuel Klee 50, and children, Ida, 20, Anna, 17; Rachel, 14, Eva, 10; Jenny, 6, and Harry, 4. The Klee residence was a two-story frame house on Broadway, the ground floor front being a grocery kept by Klee, and the rest of the house being occupied by the family. It was entirely destroyed.

Mississippi Low.

Minneapolis, Dec. 7.—The Mississippi river is unprecedentedly low. Owing to a lack of water power the steamer service in Minneapolis, St. Paul and Stillwater has been considerably reduced. Flour mills are also seriously affected. The deficiency of water is attributed partly to the lack of rains and partly to the fact that loggers on the head waters are impounding water in the streams so as to float out their cut in the spring.

Next Live Stock Meet.

Chicago, Dec. 7.—After a spirited contest between the friends of Portland, Or., and Kansas City, Mo., the National Live Stock association closed a successful convention by selecting the latter city as the place for the next convention. This convention will begin the second Tuesday in January, 1903.

Wedding Guests Poisoned.

Prairie Du Sac, Wis., Dec. 7.—There were 65 persons poisoned at a wedding feast at the home of John Mulky at West Point, near this place. It is believed there was poison in the coffee. All will recover.

Gray Hair a Crime?

Thousands of men and women are turned out of positions and many fail to secure situations because their gray hairs make them look old. This need not be.

Hay's Hair-Health

makes age halt and keeps thousands in employment because it takes years from their apparent age. HAIR-HEALTH will positively restore gray, faded or bleached hair to its youthful color. It is not a dye. Its use cannot be detected. Equally good for men and women.

Get it now—At forty my hair and mustache began turning gray. A friend on my road lost his place because his gray hair made him look older than he was. Profiting by his experience, I began using Hay's Hair-Health, with the result that I have the same dark, brown curly hair that I had at 21. Have held my position, although many younger men, whose only fault was their gray hair, have been dismissed. I thank you for it's power.

until illness came upon me three years ago. I first noticed it by being irregular, and having very painful and scanty menstruation. Gradually my general health failed; I could not enjoy my meals; I became languid and nervous, with gripping pains frequently in the groin.

I advised with our family physician who prescribed without any improvement. One day he said, "Try Lydia Pinkham's Remedies." I did, thank God; the next month I was better, and it gradually built me up until in four months I was cured. AMUSEMENTS.

DAN QUINLAN TONIGHT.

Mr. Dan Quinlan, manager and interlocutor of the Al. G. Field's Minstrels, made the Advocate a pleasant call this morning. Mr. Quinlan has many friends in Newark who were glad to see him again.

Mr. Quinlan says that the entertainment is bigger and better than ever, the reproduction of the scenes at the Pan-American Exposition being a triumph of stage scenery.

A coincidence is the fact that the company today completed just half of the 30,000 miles itinerary, having been through the south, and east and are now on the way to the Pacific coast.

The Fields Minstrels is an Ohio institution, the headquarters being in Columbus, and a majority of the members being citizens of this state.

This is the 16th successful year and in that time a salary day was never missed.

Mr. Quinlan is the same capable, genial "Dan", and his connection with an attraction is a guarantee of its worth.

NEWARK DRAMATIC CLUB.

A dramatic club has been organized among some of Newark's best known and highly respected young people. The club will rehearse some of the best modern productions during the winter and have already booked an appearance at the Auditorium on Monday night, January 6, 1902. At this time they will present the beautiful drama entitled "The Noble Outcast" for the benefit of Cedar Camp No. 4727, Modern Woodmen of America. Rehearsals are held under the direction of a skilled stage director, a gentleman who has had quite a previous experience as manager of a very successful comedy company. The best talent in the city has been secured by the club, and they deserve the encouragement of the Newark public generally. More will be said of the organization and personnel of the club in a few days as the plans of the club have not been fully perfected.

MARO MONDAY NIGHT.

The seats for the first entertainment on the Association entertainment course are selling fast. Persons desiring good seats for this entertainment should give it their attention at once. This will be one of the finest entertainments ever placed on the platform in Newark. Dr. Daugherty of Bucyrus, Ohio, called at the Association office on his way to Coshocton today and stated that Mr. Maro had appeared in a course in Bucyrus Friday night to a packed house. Dr. Daugherty said the entertainment given by Maro was undoubtedly the finest entertainment ever given in Bucyrus. "From a musical standpoint he pronounced it the best musical entertainment ever given in the city, and the magic was simply immense." The Newark people should not let this opportunity pass of hearing this great number on this splendid course at Taylor Hall Monday night.

NEXT MONDAY NIGHT.

"Dangers of Paris," which is the attraction next Monday night, December 9, at the Auditorium is one of the few successful melo-dramas of the season. It is by E. Hill Mitchellson and Chas. H. Longdon, authors of one of the surest money-makers on tour at present, "Man's Enemy." It is now in its sixth year in England, and still prosperous, one of the longest runs on record. The qualities which contribute to its success are not hard to find. It is both logical and sensational, an appeal to all classes. It is beautifully mounted, and the acting is all that could be desired. Seldom has more care or expense been lavished on a melo-drama. Each of the nine elaborate sets has been prepared, with minute attention to detail. The second scene of the first act rivals in beauty the famous garden scene in "Hearts Are Trumps." It is a veritable fairyland of multi-

He knows that his sufferings are very much like the tortures of the rack. What he wants to know is what will permanently cure his disease.

colored lights, flowers and gorgeous costumes, and forms a small entertainment in itself. Another beautiful and weird scene is the interior of a glass factory, showing the dazzling heat of the furnaces in full blast.

The plot of the play concerns the life of an ex-convict, Pierre Valjean, whose present day character is a curious example of the influence of prison upon an all but innocent man. The crime for which he suffered the penalty of the law being assault upon an officer, who insulted the girl he loved. After being released from prison, his sole aim is the betterment of humanity, which end he believes he can best accomplish by associating himself with a band of anarchists.

These, the Prefect of the Paris Police and the officer whom he assaulted are the principal male characters, while the women are the daughter of the Prefect her maid, and a flower girl, who is under the protection of Valjean. Henri Martin, a struggling young artist, loves Claire, the daughter of the Prefect, who returns his love, but is forbidden by her father to see him. Captain Brigaud, the officer, also aspires to the hand of Claire, and is favored by her father. Between Valjean and Henri, who lodge in the same house, there is a strong friendship. Henri tells Valjean of his love, and the ex-convict, on learning her name, is horror-struck, as the anarchists have planned to destroy the residence of the Prefect within an hour. At this juncture the villain, Captain Brigaud, attempts to arrest the two men. Valjean escapes, after a struggle on the telegraph wires which form a network across the street. This is one of the most novel and realistic effects ever seen on any stage. All outlets to the building are guarded by gendarmes, the windows all high above the pavement, no escape seems possible. Valjean flies to the roof followed by Brigaud. After a struggle Brigaud falls to the pavement apparently, but in reality is caught on the wires. This effect is accomplished by means of a revolving scene, which shows the villain hanging face downward on the wires, and Valjean making his way across the street to the opposite buildings. He reaches Claire in time to save her, of course, and for his courage finally is rewarded by the Chief Minister of Police with the assurance that Claire shall become the wife of Henri. There are numerous other thrilling climaxes the action of the piece moves along briskly and naturally, and there is a strong comedy element. There seems no doubt that "Dangers of Paris" will live as long in America as it has in England.

HOSPITAL COURSE.

Tickets are about to be put on sale for the Hospital entertainment course the first number on the list being the Persian Garden company. Of this company the McKeesport, Pa., News says:

A very appreciative audience attended the concert in the Sixth Avenue M. E. church last evening, and the management is to be complimented for the excellence of the program. The "Minstrel's Tour," given last evening, is a new work by one of the most genial of modern composers, and the manner in which it was presented left nothing to be desired. Last evening's concert was given by Miss Rachel B. Freese, soprano; Mrs. W. A. Lafferty, contralto; S. T. Beddoe, tenor; David T. Moore, baritone, and Charles N. Boyd, accompanist. The next concert of the series is looked forward to with much pleasure.

FIELD'S MINSTRELS TONIGHT.

Al G. Field's Minstrels at the Auditorium this evening "should old acquaintance be forgot." Well! Al G. Field does not think they should for in looking over the roster of his magnificent company we discover the name of that clever comedian, Tommy Donnelly and we are glad that Al believes in "Auld Lang Syne," for Tommy is always a welcome visitor. The lovers of minstrelsy listen to him each year with pleasure. His style is unique and fetching and he brings to his work a certain air of sprightliness and liveliness that is exhilarat-

ing and infectious. Add to this the fact that Tommy is a hustler and at ways has on tap something bright and new in song and story, and it can be easily seen why he is such a general favorite. When all the good things of the Field Minstrels are distributed, Tommy can be counted upon adding fresh laurels to those he has justly earned. This is the twelfth year that Mr. Donnelly has toured the country with The Al. G. Field Greater Minstrels. Field's Minstrel will appear at the Auditorium tonight.

TWO STRONG ATTRACTIONS.

Manager Rosebraugh has two other exceptionally strong attractions for the coming week, the Lulu Glaser, comic opera company in "Dolby Varden," Tuesday night and "The Bonnie Brier Bush," Friday night. Extended notices of these two attractions which are crowded out today will appear on Monday.

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. ARTS AND CRAFTS.

Miss Winifred Wilson will have an exhibition of her recent work on next Wednesday and Thursday afternoons and evenings at the home of Mrs. John E. Dean on North Third street. It will be remembered by Miss Wilson's friends that her course of study in the New York Woman's School of Applied Design several years ago was attended by the acquisition of a number of awards and honorable mentions. Her talent was so marked as to engage the special attention of the head of the decorative department, Miss Harriet Martell and when Miss Martell subsequently established studios of her own, she tendered Miss Wilson the important position of principal of her decorative department. Miss Wilson has discharged the duties of this position with credit and is now considering the step of establishing a studio of her own in New York, a purpose that she will doubtless soon carry into execution.

Mr. T. M. Edmiston, Miss Emma Spencer and Mr. Clarence H. White have just received from London publishers bound books containing reproductions and critical reviews of the best photographic work of the year as exhibited at Glasgow and in the two recent exhibitions in London, under the auspices of the Royal Photographic Society and the "Linked Ring." The reproductions are very well done and the reviews of the London exhibitions are written by no less an authority than A. C. R. Carter, critic of the Royal Academy exhibitions, who has succeeded Gleason White as the leading English art critic. Mr. Carter says: "Thomas Edmiston is clearly under the benign influence of Clarence White, and has been helped considerably by the latter's well known model. Of three studies of much promise, 'On the Hillside' is the most successful; the figures beneath the tree are capably posed and the restrained key of lighting suits the Arcadian simplicity of the composition." * * *

"Miss Spencer sends a quaint figure of a child blowing at dandelions, and a study of a huge cat supposed to act up to the sentiment expressed in the

little, 'A Mute Appeal,' a little fussy, perhaps, but quite unambitious attempts." The last shall be first has an especial application to the work of Clarence White, who, by general consent, now stands in the forefront of photography. His is no commonplace method of sticking to a set formula or of repeating a favorite theme until it wears out its welcome. And yet the means at his command seem so obviously simple. The resourcefulness, however, which he evinces in turning these to account is the touchstone of his art. The article concludes with a critical estimate of each of the eleven pictures that Mr. White had on exhibition. The book contains reproductions of Mr. Edmiston's 'On the Hillside,' Miss Spencer's 'The Litterer,' a portrait group of Mrs. White and her children; and Mr. White's 'Penseroso' in which Miss Perry was the lovely model.

Miss Belle Havens has taken a studio at 59 Fifth-ninth street, which she will occupy after December 9. This is pleasantly situated in the art center of New York.

The Misses Mosteller gave a very interesting exhibition of their artistic work on Thursday and Friday at their home on East Main street, the tea table, chairs, tabouret and magazine each decorated in pyrography being especially good.

CHAMPION

HORSES OF AMERICA SHOWN AT CHICAGO BY CRAWFORD.

Licking County Man's Horses Attracted Much Attention at the Big Show in Chicago.

The International Stock Show at Chicago this week witnessed the largest and finest display of horses ever seen in this country. Word comes from Chicago that Col. G. W. Crawford of this city who has been in attendance at the show with his magnificent exhibit of horses, has carried off the following prizes. First and second prizes in class and champion prize over all other classes and ages. No string of horses at the great show received the attention and admiration that Col. Crawford's horses did. This makes Licking county, O., the possessor of the champion horses of America. This is a great honor, not only to Col. Crawford, but to the county.

THE PROBLEM.

DOROTHY in the nursery can calculate the price of Ivory Soap per cake, but it would take a mathematical genius to calculate its true value. For he must take account of time, labor, and materials. He must deduct from the apparent cost the saving in the longer life of the cake, in the longer life of the washed fabric, in the labor required, in the time consumed, in the strength expended, in the results obtained. When all is finished, Ivory is the cheapest soap in the world. It floats.

MASONIC.

A stated communication of Acme Lodge, No. 554, F. & A. M. will be held on next Thursday evening, on which occasion the officers for the ensuing term will be elected.

A special convocation of Warren Chapter No. 6 R. A. M. will be held on next Monday evening at 7 o'clock. It is important that as many of the members as possible be present as there will be work.

The newly elected officers of Newark Lodge, No. 97, F. & A. M., were duly installed by Albert F. Crayton, the retiring master, as follows:

A. A. Stasel, W. M.
G. H. Woods, S. W.

Frank A. Place, J. D.
James Larimore, Chaplain.
D. C. Winegarner, Treasurer.
A. P. Taylor, Secretary.
Henry Siegel, Tyler.

Newark Lodge the past year, under the mastership of Albert F. Crayton, has had a remarkably successful year not only in the amount of work done in the degrees, but in the interest taken in the lodge and work by the members generally. This interest was excited largely by the high order of the work done in the degrees and the general increasing interest in Masonry. Some twenty-five new members have been added to the lodge and introduced into the mysteries of the order which would mean the conferring of some 75 degrees in the past year.

Unusual activity is also shown in all other Masonic bodies in Newark and Licking county. Newark Lodge will have three special meetings this

month. On the 13th inst., the M. M. degree will be conferred, beginning in the evening at 8 o'clock; on the 20th inst., for work in the E. A. degree and upon the 27th for work in the F. C. degree. The outlook for the coming year would indicate that the interest in the work will not abate.

Spalding For President.

Chicago, Dec. 7.—That the election of A. G. Spalding to the presidency of the National league would probably result in a compromise between the two major leagues was admitted by President Ban Johnson. The developments of the past week seem to show that Spalding is a candidate for that position in spite of previous denials, and President Johnson's statement brings unusual importance to the annual meeting of the National league, which begins in New York on Monday.

ACCIDENT IN WHICH TWO WERE THROWN OFF.

In Rounding Curve Man Was Thrown Against Another—The Stranger Was Not Hurt.

Jesse Armstrong, son of Mr. B. S. Armstrong, who resides on Grant street in the West End, met with an accident on Friday evening that might have had a serious termination. Jesse was coming down town and was standing on the front end of an electric car. Just as the car was rounding the curve at the corner of Eleventh street a stranger who was on board, opened the front door and stepped out on the platform. He was thrown against Mr. Armstrong by the lurching of the car, and both were thrown off the car to the ground. Mr. Armstrong sustained a painful injury to his head and was badly bruised, while the stranger escaped unhurt.

DOWN A BLUFF

Rolled a Locomotive and Three Cars. Trainmen Killed.

Vancouver, B. C., Dec. 7.—As a Canadian Pacific freight train was proceeding east at slow rate around a dangerous curve 400 feet above the Fraser river, Engineer Randall suddenly came upon a rock slide scarcely 50 yards ahead of him. A signal was given to the brakemen and the engine was reversed, but too late. The train was going scarcely five miles an hour, but the moving train behind piled the engine on the rocks, and before the engineer and fireman could jump the engine rolled over and over 300 feet down the sheer bluff toward the river. Engineer Randall and Fireman Potruff were crushed to death beneath the engine. Three cars were wrecked, going over the embankment after the engine.

New Viceroy's Request.

Peking, Dec. 7.—The principal object of the visit to Peking of Yuan Shi Kai, the new viceroy of Chi-Li, who arrived here Dec. 3, is to induce the foreign powers to relinquish their control of the government of Tien Tsin. Yuan Shi Kai has assured all the ministers of the foreign powers here that he is personally able and willing to maintain order at Tien Tsin and in the province. The Russian, American and Japanese ministers are inclined to comply with this suggestion of the viceroy, but the majority of the foreign representatives insist that the powers retain control of Tien Tsin until the re-establishment of the Chinese court at Peking.

Korea and Philippines.

St. Petersburg, Dec. 7.—A statement printed in the London newspapers to the effect that certain diplomats in Washington thought that the governments of Japan and Russia were negotiating the exchange of Korea for the Philippine Islands has created considerable amusement here. The statement is criticised as absurd and impossible, and it is further pointed out that the interests of Japan in Korea outweigh any substitute for that territory. This same idea was advanced some months ago by the Novoe Vremya, but it has never been taken seriously.

ease that is known to the human body. There is no doubt of the doctor's earnestness in making his claim and the remarkable cures that he is daily effecting seem to bear him out very strongly. His theory which he advances in one of reason and based on sound experience in a medical practice of many years. It costs nothing to try his remarkable "Elixir of Life," as he calls it, for he sends it free, to anyone who is a sufferer, in sufficient quantities to convince of its ability to cure. So there is absolutely no risk to run. Some of the cures cited are very remarkable, and but for reliable witnesses would hardly be credited. The lame have thrown away crutches and walked about after two or three trials of the remedy. The sick, given up by home doctors, have been restored to their families and friends in perfect health. Rheumatism, neuritis, stomach, heart, liver, kidney blood and skin diseases and bladder troubles disappear as by magic. Headaches, back-aches, nervousness, fevers, consumption, coughs, colds, asthma, catarrhs, bronchitis, and all vital organs are easily overcome in a space of time that is simply marvelous. Partial paralysis, locomotor ataxia, dropsy, gout, scrofula and piles are quickly and permanently removed. It purifies the entire system, blood and tissues, restores normal nerve power, circulation and a state of perfect health is produced at once. To the doctor all systems are alike and equally affected by this great "Elixir of Life." Send for the remedy today. It is free to every sufferer. State what you want to be cured of and the sure remedy for it will be sent you free by return mail.
